FACULTY SENATE AD HOC COMMITTEE ON PROCEDURES FOR GRANTS AND GIFTS  
WHICH HAVE ACADEMIC IMPLICATIONS

CHARGE TO THE COMMITTEE: That an ad hoc committee be created to study and make recommendations regarding procedures by which university approval is conferred upon requests for grants and gifts which involve new programs or courses or have other academic implications.

RATIONALE:

The Ad Hoc Committee on Procedures for Grants and Gifts recognizes that the academic freedom of each professor and initiatives in soliciting and securing gifts to the University combine with flexibility of administrative response to promote academic and institutional excellence. This committee wishes to stimulate and promote all activities in the area of grants and gifts that are productive of these goals.

The University has well-established procedures for reviewing proposals for grants and gifts. It has equally well-established procedures for review and action on all curricular matters. These current resources should be utilized in identifying and processing grants and gifts to the University which have academic implications that should come to the attention of the Faculty Senate.

The Committee proposes that a new section be added to current grant and gift application forms which:

1. Identifies those proposals that are judged by the originator or those in the normal line of approval to have academic implications that in accordance with the University Manual fall within the jurisdiction of the Faculty Senate and require Senate consideration and/or approval.
2. provides a description of the curricular or other academic implications as perceived by the originator or those in the line of approval.
3. provides transmission of grant and gift applications identified as requiring curricular changes or having other academic implications falling within the jurisdiction of the Faculty Senate to the Faculty Senate Executive Committee for its consideration concurrent with continued processing of the proposal.

RECOMMENDATION: Therefore, the Ad Hoc Committee on Procedures for Grants and Gifts Which Have Academic Implications recommends the following addition to approval forms developed by the University for the consideration of grants and gifts:

The principal investigator, department chairperson, and academic dean have the responsibility for reviewing this proposal and bringing to the attention of all appropriate parties any elements which imply or specify commitments which exceed their authority, or which fall within the purview of the Faculty Senate. (See attached sheet).

The following editorial changes were proposed for the sample Proposal Approval Sheet:

- 1) Asterisks after Department Chairperson and Dean of College
- 2) Replace "curricular" with "academic," the first question to read "Are there any academic implications?"
